

M.S. Program in Earth and Environmental Sciences

Total credits required for graduation: 28

Required Courses (4 credits)

Seminar (I) (II) (III) (IV) (1 credit for each course)

Elective Courses (24 credits)

- Must include at least 15 credits for courses open by M.S. and Ph.D. programs of the Institute of Earth and Environmental Sciences.
- Students can take courses offered other than the Institute of Earth and Environmental Sciences, but only from the College of Science or the College of Engineering. Before registering for these courses, students must fill out a consent form and have it signed by their advisor to be acknowledged as graduation credits.

Requirements for graduation

- Students shall complete the Academic Research Ethics Education Program and get the certificate before applying for the degree examination.
- Students must submit the “Thesis/Dissertation Title Inspection Form” before the end of the second semester after enrollment.
- Students must complete all the (required/selective) courses, at least 28 credits, prior to applying for the degree examination.
- Students must pass the degree examination and finish the master

thesis to get the degree.
